## General Note

Except as otherwise noted, all trade figures in this publication are compiled from publications and official records, Bureau of the Census.

The term "foreign trade" applies to trade between the United States, including its territories, and foreign countries. Trade between continental United States and its territories is referred to as "shipments". Alaska, Hawaii, Puerto Rico and since January 1, 1935, the Virgin Islands are territories. Beginning January 1, 1940, trade with foreign countries through the customs district of the Virgin Islands is not included in United States trade statistics. Figures for shipments out of the territories include small quantities to other territories. In statistics of foreign trade, forest products and distilled liquors are considered non-agricultural products.

Exports under various special economic-aid programs are included in figures appearing in this publication, but separate figures are not being compiled by the Bureau of the Census on exports under these programs. Excluded from the export figures are shipments to the United States armed forces abroad for their own use, shipments between continental United States and the territories and possessions, and shipments between the territories and possessions. Excluded from the dollar value is any export subsidy paid to private United States exporters on shipments of domestically produced agricultural commodities.

In the classification of agricultural imports into supplementary and complementary groups, all those similar to agricultural commodities produced commercially in the United States and all other that are inter-changeable in use to any significant extent with such United States commodities are considered supplementary. Complementary includes all others.

## Special Note

Beginning with statistics for July 1953, the Bureau of the Census has been estimating the quantity and value of \$100-\$499 export shipments from a 10-percent sample of such shipments and adding these to the full tabulation of shipments having a value of \$500 and over. The procedure is explained in the September 1953 and February 1954 issues of Foreign Trade Statistics Notes, obtainable from the Bureau of the Census, Washington 25, D.C.

Beginning with statistics for January 1954, the Bureau is estimating the quantity and value of imports under \$250 from a 5-percent sample of such imports. This procedure is explained in the February 1954 issue of Foreign Trade Statistics Notes.

A textual analysis of the export statistics in this publication appears in Foreign Agriculture Circular FATP 19-57 issued July 18, 1957. The publication is available free on request to Foreign Agricultural Service, Room 5918 South Building, U. S. Department of Agriculture, Washington 25, D.C.

PUBLICATIONS OF FOREIGN AGRICULTURAL SERVICE ON, OR RELATED TO,  
UNITED STATES FOREIGN TRADE IN AGRICULTURAL PRODUCTS

The Foreign Agricultural Service regularly issues several publications covering various phases of the foreign trade of the United States in agricultural products. These publications are distributed free in the United States. The titles and description of contents are:

MONTHLY:

Foreign Agricultural Trade Digest

A brief textual review of the current foreign agricultural trade position of the United States with highlights of the export and import situation; also a single-sheet, Trade News Roundup, which contains late news on governmental actions and related events affecting agricultural trade; and a summary table on the latest official trade statistics based on Bureau of the Census sources.

Foreign Agricultural Trade of the U. S. - Statistical Report

Available several months following the period covered by the statistics. Shows total quantity and value of monthly exports and imports of principal agricultural products and also cumulative figures from July 1; exports of selected agricultural products by principal countries of destination and exports to selected countries of principal agricultural products on a current monthly and cumulative basis from July 1; monthly quantity indexes adjusted for seasonal variations; monthly value of United States foreign trade in agricultural products; all with comparisons. (July issues carry tables that show, by months for the two preceding years, the quantity of selected agricultural exports and imports).

ANNUAL:

Foreign Agricultural Trade of the U. S. - Commodity Totals (Calendar Year and Fiscal Year Issues)

Issued twice a year on a calendar year and fiscal year (July 1 - June 30) basis, respectively. The calendar year issue is usually available after April 15, and the fiscal year after November 15. Contains commodity totals on an annual basis comparable to those in the monthly issues, see above.

Foreign Agricultural Trade of the U. S. - by Countries (Calendar Year and Fiscal Year Issues)

Issued twice a year on a calendar year and fiscal year (July 1 - June 30) basis, respectively. The calendar year issue is usually available after June 15, and the fiscal year after December 15. (The 1955-56 issue is the first fiscal year issue to show both quantity and value. It replaces the fiscal year issue formerly listed as Commodity by Country). Effective with the 1955-56 issue, it shows quantity and value of United States exports to and imports from selected countries by principal agricultural products; and principal agricultural products by countries of destination and origin.

Foreign Agricultural Trade of the U. S. - Imports of Fruits and Vegetables Under Quarantine (Fiscal Year)

Issued annually on a fiscal year basis only (July 1 - June 30). Shows arrivals of fresh fruits and vegetables from notices filed at ports of entry under the provisions of United States Quarantine Regulations; includes commodity breakdowns which are not available from the Bureau of the Census records.

OTHER FAS PUBLICATIONS:

Foreign Crops and Markets - Weekly

Contains analytical, statistical and outlook studies of production and supplies of, and international trade in agricultural commodities; about 25 pages, mimeographed.

Foreign Agriculture Circulars

Supplement information contained in Foreign Crops and Markets and other FAS publications. Distributed on separate mailing lists, according to commodity interest of recipient. Commodities covered are: coffee and tropical products; citrus; cotton; dairy products; dried fruits; fats and oils; fresh vegetables; grains other than rice; hops; livestock and meats; nuts; poultry and eggs; rice; sugar; tobacco; vegetable fibers; wool. Issued at irregular intervals. In requesting circulars, commodity interest should be indicated.

Foreign Agriculture - Monthly

A printed, illustrated magazine containing information on foreign government policy and other developments abroad affecting world agricultural trade. Free circulation is limited, chiefly to schools and libraries, but subscriptions are available at \$1.50 a year domestic mailing, and \$2.00 foreign mailing. Address the U. S. Superintendent of Documents, Washington 25, D. C. (Do not send payment to U. S. Department of Agriculture).
